

Dear Legislator:

I just read an article online that the new proposed budget does not include any funding for probate courts. If this is true, please correct this heinous error and pass a budget with FULL funding for our probate courts. Probate courts are vital to many underserved people. I vote, I care about how my legislators deal with this issue. I will be watching. Please don't hurt the middle class and the poor any further with these cuts. We are so beleaguered now, we need our legislators to support us, not take what little support we have left away.

Regards,
