

Ability Beyond is an amazing non-profit organization. I have been executor for my nephew who was tragically hit by a drunk driver with NO INSURANCE while a sophomore at Columbia University. He has traumatic brain injury, a terrible tremor on his right side that doesn't allow him to hold a cup, put the toothpaste cap back on and no short term memory. A tragic loss. Ability Beyond has given hope, a home, a structure. He needs constant supervision and takes psychotic medication due to the injuries sustained by his brain.

The staff at Ability monitor him 24/7. Please don't cut the DDS proposed budgets. Please restore full funding to DDS and the wait list. WHAT IF IT WAS YOU, OR YOUR CHILD OR YOUR SPOUSE?

Thanks for the consideration.
