

Governor Malloy,

I voted for you because I thought you were the one person I could count on to protect these unfortunate kids and adults. Was I wrong. You are the one who ruin my daughters future. Now with your heartless deep cuts to the DDS budget, you made her future so much worse for it. My 12 year old autistic and developmentally delayed daughter thanks you, I her mother, thank you and may God figure out where your heart went? South? Not hear for sure. There has to be better areas to cut, like raises , unnecessary perks, unnecessary transportation spending, capital spending, etc.. But to go in and slash programs that the disabled need vs. some stupid capital spending venture is disgraceful. I wish we could all bring our children to the Governors mansion and let you handle them for a day. I'm sure you wouldn't even last minutes! Shame Shame on you.
