

To whom it may concern:

I am a senior citizen/single mom with a non-verbal Angelman Syndrome daughter, who is 32 and needs 24/7 care. We have no extended family and group home housing has been denied....hopefully respite services will continue.

I urge you to oppose any further funding cuts to the DDS and to reinstate funding already taken away. Please support SB 918 in the name of all our citizens who are unable to speak for themselves.

Sylvia Kohler (on behalf of Kylee Kohler)
