

Attn: CT State Legislators

The purpose of this communication is to provide my support in your efforts to shrink the size of the CT State government and its agencies, eliminate wasteful spending and limit the amount of any new legislation which in many cases causes a commensurate increase in government bureaucracy. Cut the deficit by cutting spending and do not increase taxes or create new taxes (e.g. highway tolls). The best way we can improve the fiscal position of the state is to provide more incentives for businesses to create jobs which will have the follow-on effect of reducing many other problems (e.g. unemployment, crime, homelessness, etc)

Thank you,

Daniel J. McEvoy
