

I support Senate Bill 816. The town of Haddam is markedly low in its ECS funding receipt, based upon median citizen income in the town, allotment per student, student population, and other indices. Nearby towns receive from 50% to 250% more funds based upon these indices. The ECS formula seems not to have been amended or regulated in the past 15 years. Please amend this inequity.
Stewart Gillmor, Higganum,CT.
