Senate Bill 816

I support this bill to correct the huge unfairness the town of Haddam is forced to operate under. As a long-time teacher (36 years, 22 in Haddam) and property tax payer in Haddam since 1964 I have felt this unfair burden. Since my wife and I are retired and on fixed income it is harder each year to pay the very high property tax, which is the primary method small towns use to fund their government and the schools. There are no justifiable reasons for the State to continue to place this unfair burden on the town.

Thank you.
