

Hello, i am writing in hopes you will pass these bill, clarifying the bamboo laws. My name is Ed Bird and i live at 16 connshire dr. Waterford. My neighbor planted bamboo 10 years ago, and it has grown to be a nightmare. I had someone come out with a quote to dig it up and he said 25,000.I told my neighbor it has to be dug up it is taking over my sewer system my underground electrical wires and creeping up under my siding. It is also traveled all the way down my backyard and into the CLP THRUWAY. This needs to be passed right away she knows the damage it is causing both of our yards but won't do anything. And I can't get my town to do anything. They say the law isn't clear! Thank you
