

**Public hearing details for H.B. No. 6955 AN ACT PROHIBITING THE SALE AND TRADE OF
IVORY AND RHINOCEROS HORN**

It is a sin that Connecticut's historical fusion and greed as a key player and central participant in the horrific slaughter of Elephants and the use of slavery in the United States in seizing global control in the momentous slaughtering of Elephants and in the use of African and American slaves by industrial moguls and politicians in the massive production years of global trade in Ivory. Today, there is a growing international movement to cut-off Ivory trade and production in the USA, China and other resources of involved the toxic Ivory commerce. These efforts are paramount. There is no time left. The 'Nutmeg' State must pay its anti-humanity dues and actively join in the contemporary global efforts to put these the scars to rest.
