

Dear Environment Committee Members:

Please support HB 6955- prohibiting sale of ivory and rhino horn in our state. I feel we need to stop the demand/profits from ivory/rhino so that the massive illegal and cruel poaching will stop. Nearby states NY and NJ have passed a ban, and California is about to. If other states don't follow suit, its reported that elephants may soon become extinct. Thank you so much for supporting the ban to help save these majestic creatures.
