**Testimony on S.B. No. 572
AN ACT CONCERNING GIGABIT INTERNET ACCESS.**

Members of the Energy and Technology Committee:

The Greater New Haven Chamber is a 220-year old business organization with members across a large spectrum of businesses and non-profits that works to shape public policy and foster growth in the business community.

Connecticut should continue to enact policies that will ensure Connecticut maintains its place as a world leader in world class broadband infrastructure. To that end, we support legislation that ensures a fair and level playing field that will continue to spur the investment of private sector capital in high-speed telecommunications infrastructure to ensure our state's businesses can compete in the global marketplace.

Thank you for the opportunity to submit testimony on this issue.

Sincerely,
