

I am adamantly opposed to this bill. This will further spread the blight of gambling in our state and appeals to those who are already struggling financially. With this kind of activity comes all the societal ills that go along with it – like gambling addiction and crime. Connecticut does not need any more of our budget funded by gambling. How about cutting the budget and quit spending money we don't have. If we keep doing the same thing over and over again, including creating an unfriendly business climate and taxing people to death pretty soon we will be like Detroit. No keno – stop spending money.
