

Dear Sir/Madam: PLEASE do not pass this KENO gambling bill noted above. I am a senior citizen, who never had an urge to gamble, thank God. However, there is so much gambling already in this state-enticing thousands of citizens to follow an empty dream. I have recently moved to Enfield, and throw up my hands regarding the huge casino being built in Springfield...more shattered lives.

I also have adult children (and grandchildren) in the state; they have not bought into the empty promises of the casinos. BUT, if the state keeps making it easier to become addicted, when will the end, and how much temptation can young people withstand? I urge the defeat of HB 7054....as a way to solve the state's budget problems.

Thank you for the opportunity to voice my concerns
