

Greetings from a CT senior Citizen,

Your attempt at increasing yet another form of tax collection with gambling via the games of "KENO" after you already have hundreds of "MILLIONS" of net dollars added to the "GENERAL FUND" by both the lottery and the casinos, **in my opinion** appears to be a spending that is out of control.

A suggestion, if you please; spend it it is coming out of YOUR OWN pocket, and not out of a seemingly DEEP pocket.

Thanks for the minute of your attention, and, looking forward to a really good resolution on this house bill (7054)

Best regards
Philip P. Tomasky
