

**Testimony of
Environment and Human Health, Inc.**

by
Nancy Alderman, President

To the Chairs of Finance, Revenue and Bonding Committee: Senator Fonfara and Representative Berger and members of the Committee,

Environment and Human Health, Inc. is in strong opposition to Section 12 of HB 7055. Section 12 of this Bill would add another layer of bureaucracy to the legislative process which will cause the legislative system to be bogged down and will cost the state unnecessary addition of funds.

Section 12 of this Bill would require all new regulations that deviate from such standards or procedures of the federal government to get approval by the Regulations Review Committee. Connecticut does not need further encumbrances to our legislative process.

We hope you will strike section 12 of this Bill down.

Thank you for your attention,

Nancy Alderman, President
Environment and Human Health, Inc.
