

I am opposed to this Bill.

Before you raise any taxes, at least, with my support, please tell us how you are specifically (very specifically) cutting spending.

How about re-allocation of funds already being received? You have not made the case for tax increases.

I'm aware that bravery is required to address cuts, but isn't that an important part of being a leader.

You are leaders, aren't you?

Respectfully Submitted,

Walter E. Auch, Jr.
