

Esteemed Members of the Finance, Revenue and Bonding Committee-

I am very opposed to this bill.

In a time when we are cutting spending on social services, increasing the salaries of bureaucrats and considering the prospect of raising taxes yet again we are now going to allow an exemption on a ballpark that only a portion of the state???

This bill smacks of crony capitalism and is not in the best interest of the state tax payers, please treat it as such and kill this bill.

Kind Regards,

Daniel Spicer
