

I do not want to see my hard earned tax dollars being used to pay for the minor league baseball stadium in Hartford CT. I also do not want to see new taxes levied either. The stadium project must not be funded with public money. For it to be a viable project it needs to be funded with private funds, not tax payer dollars, in order for it to be successful. Otherwise it will be a corporate welfare project and an additional tax burden for Connecticut taxpayers.

Thanks you for considering my input,

Dave Mercik,  
Suffield CT
