

To Whom This May Concern,

It has recently been brought to the public's attention that proposed Bill 1132 may be initiated to utilize tax payers money to supplement the construction of the Hartford Yard Goats Stadium. This is totally unacceptable. I am a resident in an outlying town however I have a niece who is currently teaching in the Hartford school system. First and foremost should be the appropriation of additional money and review of the school system. Where are your priorities? The children are our future and until we can rectify the school conditions and raise the consciousness of good teaching standards and family support systems, you have no right to taking taxpayers money for a stadium.

Sincerely,

Denise Katilus
