

To whom it may concern,

My understanding on the agreement dealing with the baseball stadium in Hartford was that it would not involve any tax dollars from me! Now, I understand that "Bill 1132" if past, will direct tax dollars to fund some of the cost for this stadium!

This is another instance where we, the tax payers, are being lied to and I, for one, have come to the realization that trusting the word of our elected officials is impossible!

I am opposed to using any tax dollars to support the building of this stadium! Please honor the promise made when forming this agreement with this minor league team and put forth no public funds for any reason!

Sincerely,

Edward Dickman
