

To all concerned

Baseball in Hartford has the possibility of succeeding, but there is no guarantee that it will. If private investors want to take a chance on making it work, I say go for it. However I do not agree with using tax dollars to help them out. Tax dollars should be used to cover the **necessities** of this state. This project is not a necessity. The Connecticut government needs to rein in their spending.

Thank you

Frank Rumery
