

From: James Arnold
Town: Putnam

Testimony:

I prefer that the budget gets balanced. That the government stops spending taxpayers' dollars on their pet projects and allow us to spend our money on those things that interest us. I have lived in CT my whole life (63 yrs) and my wife & I will retire in a few years and we will be leaving CT due to the worsening condition of the economy. We are in the top 5 in the country for taxes, bottom 5 for economy, and more people are leaving than moving here. If the people in Hartford want this stadium, let them pay for it.
