

To whom it may concern,

I was under the impression that none of my tax dollars were to be used for this baseball team that was stolen from New Britain and relocated to Hartford. I guess I was wrong. NONE and I mean NONE of the many taxes that this state charges its good citizens should be used to build this stadium or anything associated with this baseball team. What an out rage and an insult to all tax payers in Connecticut , but we should be use to this by now under this current administration. This is not a State team and therefore NO taxpayer money should be used, I repeat, NO taxpayer money should be used. If the private sector wants a team in Hartford, then let THEM pay for it.

Thank you for your time and I hope and pray you will do right by the good citizens of our State by opposing this legislation.

Sincerely,

Mark Vaghi
