

Gentlemen, Ladies,

I oppose furthering gambling in the state of Connecticut. It is harmful to the families and communities of our state. It will most likely hurt the low-income people and elderly more than help any one else. What special interest group are you trying to please? As far as it being a source of state revenue, Connecticut does not have a revenue problem, it has a spending problem.

**Until you fix that the rest is a lost cause.**

Sincerely,

Michael Garcia
