

From: Mike Duffy
Town: Stafford

Testimony:

I do not care for sports and I will not pay for another waste of space sport team in CT. They will not bring revenue to the state. They will not bring people to the city. We are taxed enough. If they cannot afford to build it with their own money than it should not be built. That is why the economy is terrible as it is. It will just become another tax burden waste of money just like every other venture with political backing. If tax dollars are spent on this project you will see more of your taxpayers moving out of Connecticut as more and more have in recent times. I would consider it myself.
