Testimony:

It has come to my attention that a bill is to be proposed to divert tax revenue to help build the minor league baseball stadium in Hartford. I am opposed to this for several reasons of which one is that there was a promise made to the tax payers that this project would not use tax payer money. With the threat of money being pull from the education budgets and a potential of losing highly ranked schools is in our sights we must do what is right for our future generations and keep the promise that was made and not use tax payers money to fund an asinine venture.
