

Ladies and Gentleman,

The introduction of Bill 1132 is an absolute insult to the taxpaying citizens of the State of Connecticut. When the stadium idea was proposed it was promised that no taxpayer monies would be used to fund it. I am absolutely disgusted at the way business is done in Hartford, the taxpayers are told one thing and another thing entirely goes through the state house behind our backs. I urge every lawmaker to see this bill for what it is, another lie, another broken promise. If this stadium is to be built let those who made the move of the Rock Cats happen pay for it. The Major League affiliate of the team, the Colorado Rockies is worth an estimated \$855 million dollars according to Forbes Magazine as of March 2015. They have very deep pockets so why not let them pay for it.

Thank You,

Robert J. LaRose
