

From: Susan Salem  
Town: Tolland

Testimony:

I oppose legislation that would divert state tax revenue to help pay for the new Hartford Stadium. No state tax dollars were to be used for this purpose and now we are told that there is a bill in the works that would do just that.

Our hard earned dollars could be better spent elsewhere, say on education. If we have extra state tax revenue, then why not consider lowering the state tax to take the burden off the lower and middle classes?
