

I strongly oppose state tax revenue to be diverted for the building of a stadium in the city of Hartford. The State of CT. is in debt already and we certainly don't need another property to put us further in the red.

As a taxpayer in this state, I would like my wishes to be honored. Families in Connecticut are learning to do without; therefore, state officials must restrain from unnecessary spending and balance the budget.

We don't need a new stadium. We need to create jobs by supporting and growing small businesses thus improving the economy of Connecticut.

Bottom line-I do not want my tax dollars used to support the building of this stadium.

Sincerely,
William and Rebecca Mikus
