Subject: Human Services regarding Raised Bill 6941

I am Tammy Ennis. I am deaf and use interpreting services. I want to bring attention to Raised Bill 6941 in that there is no reasonable time frame from where DORS can't fill an interpreting need before it needs to go to another interpreting agency. The reasonable time frame should be built in (5 business days) so that the deaf client has a greater chance of having an interpreter, otherwise this bill as it is written will almost guarantee the Deaf person not getting an interpreter if DORS cannot fill, and this blocks freedom to access which is unfair.

Thank you (Tammy Ennis: tammy.ennis@gmail.com)
