

**Human Services Committee
March 12, 2015
Senate Bill 1044 – Support**

Senator Moore, Representative Abercrombie, and members of the Human Services Committee:

I am writing to pay tribute to SB1044. It is a good idea to charge employers who don't pay their workers enough to live on, especially if the state then has to provide services to those employees. I should not be the only one paying the state taxes to support these families. Big companies should pay the state to help pay for these services too. I guess it wouldn't be so bad if the business wasn't making much money. I know, because I run a small business as a family child care provider. But these really big companies like Walmart, Target, Stop & Shop, and the eating places like McDonald's, Wendy's and Burger King are making a lot of money!

I want the legislature to vote yes on SB1044 so that my taxes don't go up and so that people who don't make much money can still work with dignity.
