Subject: Please let the committee regarding the insurance covering assistance dogs for individuals in pain

Hi

I have been a social worker for the past 25 years. Throughout my career I have worked with individuals with autism, cerebral palsy, PTSD, and other mental, physical, and developmental disadvantages. These individuals would benefit from the assistance dogs. However they could not afford them. This law would improve their lives. Please help these vulnerable citizens to have a better life with these dogs. Please do the kind thing and help make this dream a reality by helping to make this proposed bill into a law.

Thanks for your time and consideration in this matter.
