Subject: 5505 public corruption in CT
Attachments: photo.JPG; ATTO0001.txt

To publish - including photo- and show you how bad this issue of supervised visitation is. A lawyer is doing it. If this doesn't underscore on simple example, while I can show you hundreds more a bit more complex, but this is just one lawyer with an interest. Afcc lawyers and judges all share this business venture across the state (and county) It's a complex problem I would meet you to explain.

For example I was ordered no abuse no neglect no unfitness, no abandonment by judge Lynda Munro to have supervised visitation for three hours a month for a cost of 2350 per month. Cash only. To support this, she claimed I had an undiagnosed mental health condition. I was the primary caregiver, former spouse has tested positive for substances that cause impairment and two DCF investigations! The psychologists involved have open DPH complaints for two years! My children - no one's children deserves this.

1. I had expert testimony to the contrary 2. A disability or perceived disability cannot be used to discriminate and segregate.

Some scary bills are coming up - especially Orwellian is the psych evals for children. What kind of society is the plan here.? By the way, Himmler and Hitler came up with the phrase "in the best interest of the child." Loosely translated from his famous manifesto: "people will be will to give up most basic freedoms for the best interest of the child." Look at ours in CT. No health safety or welfare mentioned. All those points and one with favoring a parent who left (to move in with whomever he or she was cheating with is) are points.

What kind of society are you creating for your grandchildren?

The State of Connecticut between DCF and Family court is decimating children. No lawyer in legislature should vote on issues affecting judicial. It's a cross over of powers. Only in America. In Europe - law students cannot even sit on juries let alone lawyers as legislators. Scary! "This is North Korea!" Ed Vargas
