**Subject:** Assisted Suicide Bill 7015

Dear Sir

I am opposed to the Physician Assisted Suicide bill 7015. As I get older and think of my loved ones who are and my husband who is disabled I wonder will this bill will stop. Today it's to assist those who don't want to suffer and die on their own terms, tomorrow it'll be 'sorry you're costing too much money, the end.'

Please stop and think where this bill will lead. With medicine, Hospice Care and Palliative Care, there is no need to suffer through death or to talk your own life.

Thank you for your consideration.

Vicki Alton
