Subject: Bill 7015

We have seen this Bill with three different numbers in the past month, so please make sure that you are aware that our comments are related to the assisted suicide bill being discussed on March 18, 2015.

We know there is nothing we can do about the tragedy of abortions and that is sure frustrating to us. But we haven't gone all the way to killing people already born. This assisted suicide bill looks like the dark side of abortion to us. A terrible feeling of kill them in the womb or kill them when they get sick. It has a very bad feel to it. We are seriously opposed to this legislation and would like to have you vote down the whole idea of assisting people to kill themselves. The intent sounds altruistic when you think of older people with incurable health issues and pain and suffering. But the implications that this bill leads to eventually will have us deciding just exactly who is incurable, what is the level of pain and suffering and how old should one be to have assisted suicide. This is a really bad idea for a civilized society.
