Subject: House Bill HB07015 Aid-In-Dying

House Bill HB07015:

The time has come that the public servants that have been elected and sworn to represent their constituents respect that 2/3rd of their constituents favor Aid-In-Dying legislation. Failure by these public servants to vote yes on this legislation will violate their sworn oath to their Deity; violate their sworn responsibility to the State of Connecticut; violate their commitment to their constituents and fail all citizens of Connecticut.

This legislation will pass sooner or later and our present public servants should embarrass the issue as the most important advancement in healthcare.
