**Subject:** Senate Bill 668

To the Legislature Judiciary Committee:

Please know that I am totally against legalizing assisted suicide in Connecticut. Doctors' roles should be to protect and save human lives. They should not be permitted to legally prescribe a lethal dose of medication to patients with less than 6 months to live.

Bill 668 would set a dangerous precedent for the way human life is treated in our state. Please focus instead on increasing access to hospice care and adequate and affordable nursing homes and pain management.

Kind regards,

Marianne Fahey
