**Subject:** Re: "Bill 7015"

Dear Judiciary Committee,

Please please vote NO to Bill number 7015 that would allow doctors to prescribe drugs to terminally ill people. As a retired Registered Nurse I foresee this becoming a "duty" to die instead of a "right" to die. People who are at the end of their lives should be cared for not terminated like a sick dog. We are all people with value not just something to be removed for convenience.

Sincerely,

Nan Hayden
