**Subject:** Senate bill 668

To the Members of the committee:

I urge you to support this bill. The people of Connecticut should have the option, when their time has come, to choose whether to live a few more weeks in terrible pain or to pass peacefully, with the help of a physician.

There need to be safeguards on this, like those in Oregon, but with those safeguards in place, we need to respect the decisions people make in the end of their lives.

Thank you,
