Subject: Bill 7015

Please vote NO on Bill 7015. A society that allows this kind of thing is in decline. It is also clearly against the Hippocratic oath taken by physicians. Eventually it will enable politicians and or unelected bureaucrats to make life and death decisions and can be used a cudgel against the weakest and most infirm of society. Not good.

Fix the POTHOLEs on I95 instead. That would be useful to all. Take care of the little things, and the rest will take care of itself.

Gerard Mark Nunan

I vote every time, and encourage others to do so too.
