Subject: End-of-life legislation

Hon. Committee Members:

We both strongly support the bill that would allow end-of-life choice for terminally ill mentally competent people. We have seen loved ones suffer needlessly at the end of their lives. We want to know that we can avoid suffering ourselves and that we have the ability to legally make that decision. Connecticut residents deserve a death-with-dignity law.

Thank you.

Sincerely,
Debra Silberstein and Fred Cantor
