Dear Sir/Madam,

I do not want government to go down this destructive road of introducing death to those who are weak, disabled, elderly, etc. It is a crime against humanity and does not relieve their suffering but it will in fact endanger their souls and if you are part of this decision, you, too, are endangering your own.

Do what is right and stand to protect and serve the living.

Sincerely,

Jean Visel  
81 Main St., #21  
Branford, CT 06405
