Subject: HB 7028

Honorable members of the Judiciary Committee,
My name is Arthur Daigle of Plymouth Connecticut.
I'm addressing HB7028, I have two issues with this proposed legislation. 1. I think it's a bad idea for permit information beyond a parolee to be shared with parole officers.
My second issue is with the provision for law enforcement to demand a permittee to show a permit. Without reasonable articulable suspicion. This has been addressed in Terry v. Ohio. A law enforcement officer stopping someone simply because they are exercising a right in order to examine papers is wrong.
Thank you for your time on this matter.
