Subject: RE: HB-7028

I am writing to oppose this bill, as it creates a second class of citizen who must comply with a request for showing identification paperwork for no reason other than being a legal permit holder. No other class of citizen in this state would be subject to this proposed law, only those who are already in compliance of the legal obligations to possess and carry a firearm. In fact, this would not subject even criminals because they would have no permit to carry, therefore have no requirement to provide the permit.

Once again the Connecticut legislature is attempting to single out the legal gun owner for special harassment that no other citizen is subject to just because they obeyed a law that required them to possess a permit to carry a weapon.

I really think that the issue here is that the legislature and the government of the State of Connecticut and the United States are beginning to realize that the days of the "free ride" of working in Government may soon be over, and are fearful of the citizens that own and carry firearms. There is no rational thought process that would make sense of this otherwise, because unarmed citizens do not present any threat to either government or law enforcement since they are not willing to exercise their second amendment rights.

Recently Senator Christopher Murphy made a public comment that "The only reason that law abiding citizens want to have 30 round magazines is to overthrow the government". IS he scared? You bet he is, because he constantly attempts to trample and remove our rights granted by our creator and guaranteed by the 2nd amendment. He and Dick Blumenthal are currently making an effort to remove all ammunition for AR-15 weapons from legal use, thus by default banning our currently owned and registered possessions, against the wording of the 2nd amendment.

The only thing I have seen from the Democratic members of both state and federal senators and representatives, is gun grab attempt after gun grab attempt. Get another scapegoat, because we gun owners are not going to go away. And if we do, we will be leaving you to pick up the tax tab that you have run up!
