Subject: CT Senate Bill 650

Toni and Judiciary Committee,

I would like you to vote against / oppose the current senate bill 650 with in the state senate. There are some inherent flaws with the current legislation as written. There is nothing that stops a person filing the claim from making a false statement against the other person and in turn can take away a persons rights of gun ownership with out due process. There needs to be a due process such that before a persons rights are stripped away. Please vote against bill 650.

Thank you
Robert Louth
