Subject: SB 650 MUST NOT PASS!!!

SB650 MUST not pass! How can you propose to seize ones property, stripping them of there constitutional rights without so much as even verifying the validly of the complaint? How many disgruntled spouses, neighbors, ex-partners, etc. will abuse this law & use the state to do their bidding & ultimately ruin someone's life just because they can? All without any fear of repercussions as there is no penalty for false claims.

SB650 is extremely dangerous legislation that will make CT an even more hostile state toward law abiding gun owners. If your intellectually honest with yourself, you will have to admit that this legislation will do NOTHING to protect anyone! Let's be honest, if someone is determined to cause physical harm to someone, they certainly don't need a gun! Not to say they couldn't obtain one illegally off of the streets anyhow.

Truth is that this legislation is being proposed by gun haters that continue to look for any & every tool they can to push honest, hard working, TAX PAYING gun owners out of Connecticut. SB650 is WRONG, just as is any law that strips citizens of due process. This is AMERICA! SB650 is about as un-American as it gets.

Thank you for your time & consideration.
