Subject: In support of Senate Bill 1067

Dear Judiciary Committee members,

Please consider this email my testimony in support of Senate Bill 1067. Any documentation that could help CT birth parents regarding the adoption process seems a basic right.

I am a birth mother and gave up my son Parker almost 30 years ago. Luckily, I found him about 8 years ago. We have a loving, supportive, and caring relationship that includes his parents and his sibling (also adopted). The process to find him might have been easier if I had any of the documentation when I relinquished my child.

It's the right thing to do to pass this bill.

Sincerely,
Deirdre Lane
