Subject: Senate Bill 1067

Dear Members of the Judiciary Committee,

I am a birth mother and I relinquished my son for adoption in 1968. I was 20 years old and unmarried, and this was simply what was done at the time. I strongly feel it is my right to obtain a copy of the relinquishment papers I signed, not only for my own healing, but to share with my son David with whom I was reunited in 1990, as this is part of our story.

I hereby request your support in the passage of the bill to allow a biological parent, who voluntarily terminated his or her parental rights to a child, access to documents that such biological parent signed or received in connection with the parental rights termination proceeding.

Thank you for your consideration.

Sincerely,
Penny Palmer
