

I, Patrick Edmund Kelley, Co - Founder of GetGrowingCt.Org / ECCGA hope and pray that our elected officials pass HB 6798 ( RAISED). ' AN ACT REQUIRING LABELING OF BABY FOOD AND INFANT FORMULA CONTAINING GENETICALLY ENGINEERED ORGANISMS ', to require infant formula and baby food that is partially produced with genetic engineering to be labeled as such.

It is very important to protect the current and future health of Our Great State / Nation. I believe a vital stating point would be protecting our greatest assets , our children. It is imperative that we " Wake Up Now " , We The People of Connecticut have spoken on the subject of GMO's and we are very clear as evidenced by the first law passed in our Great Nation. I, Thank You in advance for using wise judgement in this successful passing of HB 6798. The citizens have elected you into office, now it is your duty to show respect for the high positions you hold. Please, do not let us down, do not let yourself down, and most importantly do not let Our Children down.

Sincerely, Patrick Edmund Kelley.
