

Mr. & Mrs. Curt Schibli support the Raised bill #207 entitled, An Act Concerning Funding for a Lyme Disease Prevention & Education Program."

As parents of a daughter who suffers from chronic lyme disease, we know first hand how this disease reduces quality of life for those stricken by this illness and the emotional and financial burden it places of upon their families.

Lyme Disease has reached epidemic proportions in the state of Connecticut, and it is a serious threat to our quality of life. By funding Bill #207, you will enable the community out reach program, BLAST to expand it's reach to all of CT.

The BLAST lyme disease prevention program cited in the legislation was created by the Ridgefield Health department using state funds for use in Fairfield County. The BLAST program was approved by the CT department of health as a model Lyme Disease prevention program and has proven its value.

We thank you in advance for your support.

Kind regards,
Mr. & Mrs. Curt H. Schibli
